OMARI BILAL IBRAHIM

Frontend Developer

Lagos, Nigeria || +234 909-780-5302 || [Portfolio](#) || [ibeomari@gmail.com](#) || [GitHub Profile](#) || [LinkedIn Profile](#)

Professional Summary

A highly skilled Frontend Developer with over 5 years of experience in developing web applications and websites using cutting-edge technologies such as React, TypeScript, and Next.js. Successfully led a cross-functional team of engineers and designers and collaborated with project managers across different time zones to deliver multiple projects on time and within budget. Developed and deployed a cybersecurity and brand protection web app showcased at the Black HAT event in Riyadh, Saudi Arabia, in November 2022.

Skills

- **Tools** – ZenHub, Trello, GitHub.
- **Stacks -** React, React Native, TypeScript, Next.js, Webflow
- **Others –** Tailwind CSS, Chakra UI, Material UI, Redux, React-Query, SEO, REST APIs.

Work History

1. **Software Engineer**   **Travelbay** *– Nigeria*   **Mar'23 – Present**
- Developed a chatbot to improve user experience by providing quick responses and information.
- Redesigned the UI based on the recommendations of the design team to enhance the overall look and feel of the application.
- Implemented localization and internationalization features to support users in different regions and languages.
- Improved website performance and speed through optimization techniques such as image compression and code minification.
- Conducted user research and usability testing to gather feedback and insights on the website's design and functionality, and made data-driven improvements accordingly.
- **Utilized:** React, MobX, Graphql, Material UI, CSS, HTML5, Bitbucket

2. **Frontend Developer**   **FastaMoni** *– Nigeria*   **Dec'22 – Present**
- Architected responsive and user-friendly fin-tech products including website, webapp and admin dashboard with a focus on creating efficient and modular code to improve maintainability utilizing best practices for state management and component organization.
- Validated various financial APIs for transactions, account management, and data visualization, including utilizing secure methods for handling sensitive user data and financial information.
- Monitored and improved website performance by utilizing Google Analytics and Search Engine Optimization.
- Instituted real-time updates and push notifications for financial alerts and transaction updates.
- Installed robust error handling and logging to ensure reliable data transmission by utilizing advanced security measures such as encryption and authentication to protect user data.
- **Utilized:** React, React-Query, Redux, JavaScript, Chakra UI, CSS, HTML5, XML, Git

3. **Frontend Team Lead**   **Cyberme Studios** *– Riyadh, Saudi Arabia*   **July'22 – Feb 2023**

- Lead a team of 12 Frontend Engineers and 3 UX designers to develop and deploy 4 projects while ensuring they were delivered on time and within budget, resulting in a decrease in project overspending and a 15% increase in project completion within the designated timeframe.
- Conducted in-depth research on 6 competitors' platforms and identified key areas of improvement in terms of user experience and functionality. Provided recommendations to the product manager on how to improve own product which resulted in a 15% increase in user engagement within 6 months.
- Assembled projects with around 150+ screen mock-ups deployed at Black HAT event, Nov 15 – 17, 2022, Riyadh SA.
- Automated features to improve user experience and reduce manual tasks for users, resulting in a 20% increase in productivity and a 10% reduction in user complaints.
- **Utilized:** React, TypeScript, React-Query, Redux, JavaScript, SASS, Webpack, Plugins, Chakra UI, CSS, HTML5, Git, Trello, ZenHub.

4. **Frontend Developer**   **Cyberme Studios** *– Riyadh, Saudi Arabia*   **May'22 – July'22**

- Developed a cyber-security website.
- Visualized real-time data visualization and analysis for network monitoring and threat detection.
- Integrated various security APIs for vulnerability management, incident response and threat intelligence.
- Succeeded in frequent troubleshooting and debugging of application code.
- Completed projects with around 100+ screen mock-ups.
- **Utilized:** React, TypeScript, React-Query, Redux, JavaScript, SASS, Webpack, Plugins, Chakra UI, CSS, HTML5, Git, Trello, ZenHub.

5. **Frontend Developer**   **3REEN** *– Port Harcout, Nigeria*   **Jan'22 – July'22**

- Innovated and reorganized a cryptocurrency e-commerce site using WIX.
- Integrated an online payment gateway system.
- **Utilized:** TypeScript, Redux, JavaScript, CSS, HTML5, Git, WIX, Binance, PayPal.

6. **Frontend Developer**   **FREELANCER** *– Remote*   **Apr'19 – Aug'22**
- Developed a variety of web-based projects using HTML, CSS, JavaScript, and various frontend frameworks such as React, Next.js, and Vue.
- Implemented responsive design and cross-browser compatibility for various websites and web applications.
- Communicated with designers and developers to improve the overall user experience.
- **Utilized:** React, Redux, JavaScript, SASS, Chakra UI, CSS, HTML5, Git.

Education

B.Eng. – University of Ilorin
